

STRAIGHT TALK

The person who commences the week with the knowledge that the past week's salary is gone, and with a mortgage on the coming one, has little incentive to work, and, as a rule, does not give value received to his employer.

On the other hand, the man who has a snug savings account with this bank, and is adding to it constantly, it is safe to say, finds enjoyment in his work and is a valued employee.

Open a savings account with this bank. The four per cent compound interest which we pay will assist the growth of the fund. Start today.

GREATEST DESIRE

Let the accumulating of a substantial savings account be your greatest desire, and so long as you do not start one, let us hope that it may be your greatest cause for worry—then you will soon have one. You must save. There is no way out of it. Neglect it and you will suffer the penalty.

At first you may find it a real task, but by watching every expenditure and training yourself to say "NO, I can get along without this and that for I must add to my savings account," you will soon take a real interest in saving every dollar possible.

Start with a dollar.
